## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 2, 4 and 12, drawn to a cutter apparatus with a special technical feature of a specific cutter configuration.

Group II, claims 3, 5-7, drawn to a cutter apparatus with a special technical feature of a tensioning means.

Group III, claim 8, drawn to a cutter apparatus with a special technical feature of a specific guide configuration.

Group IV, claims 9-11, drawn to a cutter apparatus with a special technical feature of a specific housing configuration.

Claim 1 will be examined upon election of one of the Groups.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. Group I has the special technical feature of a specific cutter configuration not required in Groups II-IV.

4. Group II has the special technical feature of a tensioning means not required in Groups I, III and IV.

5. Group III has the special technical feature of a specific guide configuration not required in Groups I, II and IV.

6. Group IV has the special technical feature of a specific housing configuration not required in Group I-III.

7. Because this restriction requirement is considered to be complex, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (571)272-4505. The examiner can normally be reached on Mondays, Tuesdays, Thursdays and Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Boyer D. Ashley can be reached on (571)272-4502. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
